Dräger

"Because of our products, customers see us in the modern tech world. Having Resco's world-class mobile app reaffirms this reputation."

Hauke Jacobsen
senior IT consultant for sales, marketing and service Execution, Dräger

Hitachi Solutions

The offline capability of the Resco Field Service mobile solution is a powerful tool. Furthermore, customers who have used Resco have given high marks to the application's responsiveness and stability.

Nobuo Hamaoka
Department Manager, Department 3 Global Division, Industrial Innovation Business Division, Hitachi Solutions, Ltd.

avanade

"Today's organizations must innovate and adopt new technologies to move forward and to stay sustainable to support their first line workers within field services. Extended Reality solutions like these will increase productivity, support growth of workforce, sustain knowledge within the organization and empower first line workers in their work and private life. Organizations like these become ready for the next technology wave."

Alexander Meijers
Global XR Technology Lead, Avanade

Nurse Maude

Resco provides seamless yet extremely powerful solutions, with the all-important ability to customize. Health demands and legislation are constantly changing, and it enables us to respond with high quality service to meet our clients' needs.

Melanie Wall
IT Manager, Nurse Maude
