

Smart Safety using Smart Watches

NIVY Watch

Smart Safety using Smart Watches

- \ **Powerful indoor positioning system**
 - locate staff quickly and efficiently.
- \ **Send emergency messages to employees.**
- \ **Quickly capture input** from employees confirming their safety.
- \ **Simple & easy deployment** - Works 'out-of-the-box'.
- \ **Easily scalable** – from 1 watch to 10,000.
- \ **Work safety monitoring.**
- \ **Professional smartwatch with multi-charging station.**
- \ **Specialized Android based firmware** optimized for business use with reliability in mind.
- \ **Dedicated custom app platform**, based on proven Resco technology, listed in Gartner Magic Quadrant for Multiexperience development platforms.

Extendability

- \ **Employee Time Tracking**
- \ **Entering/Exiting Buildings or Areas**
- \ **Work activity time measurement** (operating machines, machines downtime, breaks, dangerous areas etc.)
- \ **Covid-19** Social Distancing and Contact Tracing
- \ **Custom Apps** to suit your business needs
- \ **Work Pattern Analysis**
- \ **Employee Welfare** – Stress levels and physical excursion
- \ **Checklists** such as Health & Safety Inspections
