# resco.Guides

Years of knowledge at the fingertips of technicians

Capture, standardize, and apply tribal knowledge via a single app. Technicians can access and feedback work instructions anytime to execute tasks faster & error-free. Engage your field team via effective on-the-job training.

Meet your goals faster with smarter knowledge distribution

Save money and time with autonomous task fulfillment on the shop floor

Boost operations efficiency, mitigate downtimes, eliminate errors

Ensure continuous improvement and preserve tribal knowledge with information in one place

Increase safety and reduce accidents through step-by-step instructions

Tools for every worker to become an expert:

- Digital work instructions
- Training and upskilling materials
- Maintenance manuals
- Troubleshooting guides

How does it work?

1. Quickly identify equipment by scanning a QR code
2. Select the relevant step-by-step guide
3. Create new guides and share your expertise with the team
4. Give feedback or rating on existing guides

Collaborative
