## resco Forms

### Create forms to collect field data

Conduct surveys, audits, or inspections, and use guided workflows directly in Power Apps and Power Pages.

- Save time using a no-code designer
- Build a form once, deploy everywhere
- Collect data on the go
- Get valuable business insights

Power Apps    Power Pages

## resco Docs

### Automate document generation and delivery

Combine Dataverse and field data to automatically create invoices, contracts, and reports in PDF or any format you choose.
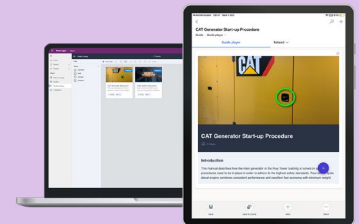

- Design document templates in a dedicated drag-and-drop tool
- Create unified pixel-perfect documents
- Handle all documents with one solution

Power Apps    Power Automate

## resco Steps

### Access and transfer field knowledge

Create step-by-step instruction guides with text, images, and videos to prevent errors and speed up onboarding.

- Create guides quickly
- Close the skills gap
- Speed up onboarding and training
- Improve first-time fix rate
