

# resco.Inspections

for Microsoft Dynamics 365 and Dataverse

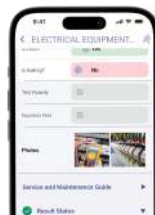

## Collect field data with ease, make decisions with confidence

Empower your field teams with digital forms, guided workflows, and reports. Complete jobs faster, satisfy more customers, and make informed business decisions.

### 1. Build

Import or create questionnaires using drag-and-drop interface, add smart questions, design reports, and set business logic without coding.

### 2. Collect

Use digital forms on a variety of mobile devices to gather data, capture photos, add signatures, or generate reports, even when offline.

### 3. Utilize

Analyze collected data, create reports, dashboards, or alerts, and use advanced tools like Power BI to make data-driven decisions.

## Achieve substantial results

45% productivity increase

68% process optimization boost

25% customer satisfaction improvement

30% back-office time savings

## Designed to fit your scenario

Field Service

Mobile Sales
